

## Got A Question? "Ask The Lab"

### *Announcing a new Q&A feature on our Discussion Forums*

**G**ot a TPF question you can't seem to find the answer to? Looking for some guidance from the "pro's" on a TPF technical issue? Well now you have a place to turn for those answers!

ACP•TPF Today is very pleased to announce the opening of our new "Ask The Lab" conference on our Discussion Forums web site. Members of the TPF Development Team in the Poughkeepsie Lab will be monitoring this conference on a regular basis. If you've got TPF-specific questions, inquiries, or what-if's, here's your opportunity to "Ask The Lab" and either get your answers directly, or be referred to the person(s) who can provide you with the answers.

The ACP•TPF Today Discussion Forums are open to all TPF professionals. They're easy to access, easy to use, and a great way to share technical information, product news, and industry announcements with each other. There's even an auto-notification feature that will email you any time a conference of interest is updated. Stop by today, and visit with us at:
